

## Nested IF ELSE statement

```
#include<stdio.h>

#include<conio.h>

int main(){

    int a;

    printf("Enter the Percentage:");

    scanf("%d",&a);

    if(a>=80)

    {

        printf("Grade A");

    }

    else if ((a>=60)&&(a<=80))

    {

        printf("Grade B");

    }

    else if ((a>=40)&&(a<=60))

    {

        printf("Grade C");

    }

    else

    {

        printf("Fail!");

    }

    printf("\n");

    return 0;

}
```
